

Good morning,

As the roofing manager for Milestone works in the southwest. I would like to recommend TWK scaffolding.

I work closely with Jordan coffin TWK contacts manager, who delivers on average 20-30 scaffolds per month across our contacts in Wiltshire and Dorset.

There attention to detail and precise drawings help to maintain a programme that I personally run, which in effect makes the running of a large roofing company a lot easier with TWK on board.

I regularly have meetings with Jordan and the communication from him is very good.

The scaffolding operators on the ground are of the highest standard, PPE and efficiency is also very good.

I recently had a tight deadline to hit and needed scaffolding up in a short period of time which Jordan and TWK completed with ease.

I have been using TWK for the last few years and have no problem in giving them my recommendation.

Kind regards,

Ben Sharman  
Milestone
